

GENERAL SERVICE

General Service members would see a \$4.00 increase to the availability charge for single-phase service and a \$7.00 increase to the availability charge for three-phase service. General Service members will also notice \$0.00400 increase to the energy charge. The Power Supply Cost Recovery (PSCR) charge will be adjusted as necessary. It is important to note that the PSCR billing mechanism is designed to fluctuate as needed to respond to small changes in power supply costs.
